

This datasheet was updated on 4th January 2017 - Even though we regularly update our datasheets, for the most up-to-date information please visit our website. Please also note that once this datasheet has been printed off by you, we are no longer liable for the accuracy of the content provided within.

Accept credit cards on your website with the **ADULT BUSINESS** merchant account and payment gateway

Everything you need to accept payments online through your website

The costs below are for both the **merchant account and the payment gateway**. If you were to get your gateway from one company and the merchant account from another, you would have the same costs, we have simply put them into one easy to use package.

Please note that special terms may be applied such as a longer settlement period and an annual fee. Please also be aware that adult accounts can take longer to set-up due to the nature of the business and the banks that we use.

* Processing history required for proof of turnover. Please note that if your monthly turnover is below £10,000 we are unable to provide merchant services.

Remember you do not pay anything until your account is live!

Application Fee	×	Supported Currencies	120 inc GBP, EUR, USD
Annual Fee	✓	Price Per Currency	FREE

Rolling Reserve	10%	Free integration Guides	✓

Merchant Account

The merchant account verifies and processes credit card and customer information. This includes checking any details supplied are correct.

Payment Gateway

The gateway securely sends the information through the relevant financial networks to the merchant account.

VPOS

To take card transactions over the telephone you simply login to your secure virtual terminal and enter the card information.

You also get...

Recurring Payments
Reporting tools
Batch Processing

Simple application with an instant decision

We've simplified the application process so that you can apply for our merchant account at the same time as our gateway.

Apply now, it'll only take a minute

For much more information on all the above features please visit us at www.web-merchant.co.uk
